

Write a function to Remove duplicates from sorted array (atmost 2 duplicates are ok)

```
public int removeDuplicates(int[] nums) {  
    int i = 0;  
    for(int n : nums){  
        if(i < 2 || n > nums[i-2]) nums[i++] = n;  
    }  
    return i;  
}
```
