

Remove duplicates in a sorted linked list

```
public ListNode deleteDuplicates(ListNode a) {  
    if(a == null) return a;  
    ListNode output = a;  
    while(a.next != null){  
        if(a.val == a.next.val) {a.next = a.next.next; continue;}  
        a = a.next;  
    }  
    return output;  
}
```
